What Our Solutions Do
- Deliver hardware/software solutions that protect our Nation at the speed of war
- Provide actionable intelligence leveraging cyber, geospatial and signals intelligence, AI and big data analytics
- Protect national space / airspace
- Eliminate weapons of mass destruction
- Deliver and protect mission critical infrastructure

Representative Solutions
- Cybersecurity solutions including high speed processing, network visualization and vulnerability research & engineering
- RF spectrum collection, situation awareness, record and playback for actionable intelligence
- Geospatial collection systems and on-demand 3D processing to provide high resolution aerial imagery
- Space situational awareness and small satellite systems integration
- Missile defense systems engineering and integration including counter-Hypersonics
- Multi-domain command and control

# SOLVING TOUGH CHALLENGES WITH SMART TECHNOLOGIES

Delivering innovative technologies across segments.

## Our solution provides mission management, strategic assessment, and situational awareness across domains to improve power protection.

Dfuze is a commercial off-the-shelf technology that enables video streaming feeds over Wi-Fi, 3G, 4G LTE, satellite, and other networks to multiple users and locations that exist within secure systems anywhere in the world.

ENVE is our cyber solution that analyzes network traffic and fingerprints devices—in real time.

ICS-512 is an autonomous collection system populating regionally specific survey settings based on the system’s GPS location, surveys the environment, and records detected control channels’ metadata and information.

### Dfuze

**ICS-Trilogy**

ICS-Trilogy is a passive monitoring and active targeting tool for GSM, WCDMA, LTE, BlueTooth, TPMS and Wi-Fi that can provide full mobile device ID correlation.

### ENVE

**iNET**

NET, the most deployed traffic management software in the world, controls stoplights and intelligent signage on freeways and changes tolls in response to changes in traffic.

### iCS

**Knowtify**

Knowtify® is a secure, web-based enterprise search, discovery, and analytics tool, developed to provide users with the means to find important information buried within both structured and unstructured data.

MAAPTK® is a planning tool created to modernize how missions are developed for inclusion into an Air Tasking Order (ATO).

### iCS-512

**MAAPTK**

MAAPTK® is a planning tool created to modernize how missions are developed for inclusion into an Air Tasking Order (ATO).

### packetworm™

The Parsons PPS high-speed packet processing solution can process up to 3.2Tbps of packet data, using a tiered architecture with advanced hardware offloading to provide scalability and redundancy.

### Intelligent Surveillance

**PearlFlash**

Spectral imaging technology enables automated detection of humans and surface swimmers, reducing time needed by operators and analysts to review video screens while increasing the overall detection rate.

Our technology enables intelligence customers to analyze objects and movements from space and reduces or eliminates the need for infrastructure measurements and inspections.

PROACTIVELY MANAGING COVID-19 ENVIRONMENT
COVID-19 Internal and External Operational Excellence

**Internal**

- Holding daily corporate response management team meetings since January
- Protecting the health and well-being of our employees
  - Produced and delivered over 1,000 3D-printed face masks to protect employees (and donate to health care providers)
  - Deployed IT equipment and now nearly 90% of staff is working remotely
  - Redeployed staff impacted by customer work requirements
  - Enhanced leave policies
  - Increased frequency for sanitizing facilities
- Virtualized our security operations center, enhanced our cybersecurity protections and ensured continuity of operations across the portfolio

**External**

- Programs have been largely classified as mission essential and obtained permission for remote work
- Continued to deliver on our customers’ critical missions
- Second successful small satellite launch manifested with an Advanced Extremely High Frequency satellite
- Employees’ outstanding performance recognized in response to work performed under COVID-19 challenges
PROACTIVELY PURSING COVID-19 OPPORTUNITIES

COVID-19 Awards Post Q1 2020

- Providing personal protective equipment as-a-service for N95 mask decontamination
- Deployment of virtual transportation management centers

COVID-19 Solutions Organized into Four Categories

- Touchless screening solutions and virus testing
- Bio-surveillance
- Cyber Protection
- Digital Transformation

COVID-19 Example Solutions

- DetectWise™ suite of offerings will reinvent the entire passenger screening experience through system integration of best-of-breed emerging technologies, data analytics and AI. This suite of products includes a touchless health screening kiosk, mobile virus testing laboratory, and a decontamination facility
- With partners, developing scalable nationwide IT architectures for monitoring individuals tested for COVID-19, and a sensing solution to monitor and detect biohazards
- FS and CI Cybersecurity solutions have synergistic applications to healthcare industry

FINANCIAL HIGHLIGHTS
Q1 2020 KEY TAKEAWAYS

Strong Revenue Results

- Revenue of $971M, increased 7% year-over-year; driven by strong organic growth
  - Federal Solutions organic growth of 11%; second consecutive quarter of double-digit organic growth
  - Critical Infrastructure organic growth of 2.5%
- Net income up 33% to $13M
- Adjusted EBITDA margin of 6.2%, exceeded company’s internal plan; Q1 is historically the company’s lowest margin quarter
- Q1 2020 book-to-bill ratio of 1.0x, driven by 1.3x in Federal Solutions

Investing in critical areas that drive growth: Business Development, R&D, recruiting, retention, and training of our talented employees

Balanced portfolio continues to be a strength: financially stable government customers in both segments

Strategically maintained strong balance sheet: low leverage, over $400M of undrawn revolver capacity, deep backlog leaves company well-positioned
